Customer Reviews

Excellent, thorough

Sacrum drawings are terrible and make it so much harder to learn

THE book for understanding and mastering OMT.

This is the book you need for your osteopath career. I love the book to the last page. Brand new and good price

Great book and was in awesome shape. Arrived before promised too. Thank you!

I learned many historical and mystical aspect of OMT in it. Chapman pints which was not taught very well was explained . Jones counter strain and how it came about. It was an excellent read and is in my reference books now.

If this is the required book for your osteopathic school as it is for mine, then you better get it. It's absolutely necessary. There's only like.. 10 minor corrections needed (but that's alot fewer than any errata ever).The pictures are places where you need them. necessary. very.

Thank you very much. The book is in amazing condition.looks new. Super fast delivery. I am very happy with it.
