# Homemade Repellents : Ultimate Guide To Homemade Repellents And Natural After Bites Remedies: Safe Organic Repellents To Keep Away Bugs Like Ants, Mosquitoes, Roaches, Flies, Spiders ... The Grid, Travel, Aromatherapy, Camping)

## Synopsis

Start Making Your Own Natural, Organic And Safe Homemade Repellents Today And Avoid The Negative Effects On Health That Are Caused By Toxic Chemicals In Market Sold Insecticides!Your Family Deserve To Be Pest-Free In A Safe Way!GRAB A COPY TODAY AT DISCOUNTED PRICE OF \$2.99 INSTEAD OF REGULAR PRICE OF \$5.99!Any insect or animal that attacks our homes, our crops, our food, our livestock, and other things useful to us is categorized under pests. There are many pests, seen/unseen and known/unknown, around us and they can create havoc in our daily lives. Managing these pests has, in fact, been taken on as successful commercial ventures. There are many chemical-based pest control products available in the market. However, many of the chemicals used in them such as DEET, though approved by appropriate authorities, are not free from toxicity. In fact, DEET can cause eye irritation, blistering, rashes, soreness. Hence, while we may think it convenient to use these chemical applications to get rid of pests, in the long run they can cause far more harm to you and your loved ones that you would like. Instead, it would be really great if we can manage these pests using homemade remedies. It takes seconds for a fly to contaminate your food. The safe way to stop those pests are a click away by getting this book. The benefits of homemade remedies for pest control include:As they do not contain any toxic chemicals they are very safe for use within your home – will not have any side-effects on children and pets if used as per recommendationInexpensive - because they are usually made with common materials available at home or your grocery storeEnvironment-friendly - as usually no toxic gases or by-products are emitted outHere Is A Preview of the Chapters from this Book:-Repellents for Wasps, Termites, Ants, and MosquitoesRepellents for Roaches, Flies, Ticks, and SpidersBed bugs, Cloth Moths, and LizardsRemedies for Common Outdoor PestsAfter-Bites Remedies And Finally prevention strategies to avoid dealing with pests in the future since prevention is better than cureDownload Your Copy Today!Chemical pesticides have been proved scientifically, in the long run, to increase the immunity of these pests and sooner rather than later, these seemingly convenient pesticides will cease to have the required effect on pests.How long more are you going to suffer the negative effects of chemicals in your life? A day more is too much! Your family deserve to be safe without negative pesticides effects! ## Customer Reviews

I have been looking for a natural way to kill ants and mosquitoes, in this book I learned that and more thank you so very much I will keep updating all about how it all works. Except the lizards, lol I live in Florida and own two bearded dragons so we don't mind the lizards around. Again lol but if you don't like them I'm sure it will work

Useful information to repel various bugs and pests. There is a number of mistakes and missing words though.

This is definitely a book I would recommend to anyone who is frustrated with insect bites and are at a point of giving up on solutions. I wanted to get rid of the itchy spider bites and that lead to the knowledge that there was the spiders living in my home which left me uneasy. This boom was very easy to read and had immediate quick fixes and preventative measures to keep these pests out of my home
