# Menopause Practice: A Clinician's Guide

## Synopsis

NAMS is proud to offer the completely updated and referenced 5th edition of the Society's leading professional resource, featuring the latest comprehensive clinical practice information. The textbook is offered in a print book and in an interactive, downloadable, fully bookmarked PDF format. Written and reviewed in collaboration with dozens of experts in the care and treatment of midlife women, this new edition is an indispensable resource for all practitioners focused on menopause management. The Society is grateful for the work of all these contributors, as well as to Noven Women's Health and Novo Nordisk Inc. for the unrestricted educational grants that helped in part to defray development costs. As a CME activity, the textbook and accompanying examination provide a maximum of 26.0 AMA PRA Category 1 Credits™, available through October 15, 2017. Learners other than physicians will earn a certificate of participation noting that the activity includes 11.5 hours of pharmacotherapeutics education.

Founded in 1989, The North American Menopause Society (NAMS) is North America's leading nonprofit organization dedicated to promoting the health and quality of life of all women during midlife and beyond through an understanding of menopause and healthy aging. Its multidisciplinary membership of 2,000 leaders in the field including clinical and basic science experts from medicine, nursing, sociology, psychology, nutrition, anthropology, epidemiology, pharmacy, and education allows NAMS to be uniquely qualified to provide information that is both accurate and unbiased, not for or against any point of view. We are pleased to be recognized as the preeminent resource on all

aspects of menopause to both healthcare providers and the public. NAMS is a 501(c)(3) nonprofit organization.

The information is unequalled. The writing is very dense and dull.
