Women's Culture: American Philanthropy And Art, 1830-1930

Synopsis

Kathleen McCarthy here presents the first book-length treatment of the vital role middle- and upper-class women played in the development of American museums in the century after 1830. By promoting undervalued areas of artistic endeavor, from folk art to the avant-garde, such prominent individuals as Isabella Stewart Gardner, Gertrude Vanderbilt Whitney, and Abby Aldrich Rockefeller were able to launch national feminist reform movements, forge extensive nonprofit marketing systems, and "feminize" new occupations.

This is a really interesting and informative book. Illuminated an aspect of women's history in America which needed more attention.
