Positive Parenting - Stop Yelling And Love Me More, Please Mom. Positive Parenting Is Easier Than You Think. (Happy Mom Book 1)

Synopsis

We can not raise a happy child if we are constantly screaming threats at them. No parent sets out to hurt their child, but this type of parenting does just that. To raise a happy child that wants to behave, you need to retrain yourself first. You need to change the way you think and react to their behavior. You need to understand your triggers and heal yourself. Only then you can begin to heal your relationship with your children. Making the decision to be a positive parent will benefit your whole family. You will find that your children want to behave and follow your rules. You will be less stressed out by the end of the day. Your house will not feel like a battle zone. Instead, you can create a home full of peace and love for the whole family. This book will show you why strict and permissive parenting do not work. You will learn just how easy it is to embrace a positive parenting style. While learning how to be a positive parent, you will not only heal the relationship with your children but heal yourself along the way. Very good info

Really enjoyed reading this book. Plenty of useful insight to deal with the joys and frustration of parenting. Recommend you read

Basically I am not a parent yet but I think this book is very important and informative for all that are why I got this book and after reading the entire book I feel that I was right this book is very good and informative for all, this book provides lots of good information and guidelines those will be very helpful when we become a parent, I think everyone should have to read this book.

I bought this book for my wife and she likes it. She told me that she can see herself in this book and it is useful for her.

It's a great book.... basically says, hey these are the most basic reasons that cause this behavior! It's an eye opener for people who are in denial about their parenting.

It was a quick read that allowed me to fully understand positive parenting with good guidelines. I will be using this as a reference to becoming a better mom.
