The Book Of Angels: Dreams, Signs, Meditation - The Hidden Secrets

Synopsis

When your dreams have become as real as day When your spirit seeks the meaning of its existence, its loves, its work When you see behind the images and you hear beyond the words When you feel vulnerable and your feelings are beyond your power to control When your body hurts and you don't know why When you ask yourself, Why live, if I have to die? When you faced with social inequalities and misery of this world, you wonder if God really exists You are ready for initiation You are ready to receive Knowledge. Increasingly, The Traditional Study of Angels is being discussed as a philosophy for spiritual autonomy that will mark the decades to come. Distinguishing itself from books that merely pass through one's life, The Book of Angels, The Hidden Secrets, Dreams - Signs - Meditation by Kaya and Christiane Muller, transports us to the heart of the application of spiritual life and allows us to discover that Angels, usually represented as little children with wings, are in reality Fields of Consciousness that inhabit all of us. Working with The Traditional Study of Angels is very simple. It is sufficient to repeat the name of an Angel, like a mantra, as often as possible, while meditating, walking, doing daily tasks, etc. When done on a daily basis, this recitation triggers teachings through dreams, signs and powerful expansions of consciousness that lead us to understand that, whatever name we use, God is in fact an immense Computer in which we live. The Book of Angels, The Hidden Secrets, Dreams - Signs - Meditation offers testimonials by those who practice this ancient path of Knowledge. It is an essential tool for all those who wish to understand in depth the meaning of dreams, signs and daily events. This book, a major bestseller in the field of spirituality throughout the world, is being discovered by more and more people every day and is presently being translated into several other languages. Positioning itself literally as an ageless classic, and in addition to having become a reference on Angels in many countries, this unique book is a collection of hundreds of personally experienced events and dream analyses. It allows us to discover what spiritual life is in its concrete application. If a person asks you for a book on Angels or on the interpretation of dreams and signs, this work is the most important reference you can suggest.

When I reached 40, I thought I had already achieved all my dreams. I had a family, a home, and a job I enjoyed that allowed me to combine motherhood and a profession. I wondered what could possibly inspire me now. Well, I encountered the Angels and life has become a challenging, wonder-filled adventure where the bad moments, the nightmares, the falls from pride, the often shameful awakenings along with the surprising synchronicities, the awe inspiring dreams and visions and unexpected gifts turning up out of the blue lead to the knowledge that I am now empowered to cleanse my faults, purify my flaws, pay off some of my debts, transcend my distortions and develop pure qualities to rediscover my Divine self and to fulfill my purpose here on Earth. Detoxifying is not always very pleasant, but the benefits gained lead us to dreams beyond our imagination. As I approach 50, I can laugh at my 40 year-old self for I now have so many dreams it'll take all this life for them to be fulfilled! To Kaya, Christiane and Kasara, the UCM team and all the volunteers, my sincerest and most heartfelt gratitude for your selfless devotion, inspiring generosity and pure love for the Divine. To all of you who decide to start working on yourselves with The Traditional Study of Angel, for those of you who start studying at the Universe/City Mikal, rest assured, you are about to embark on the most marvelous journey of discovery: discovery of yourself and discovery of the Divine Laws that govern the Universe and Knowledge of that perfect Cosmic Intelligence, the Divine Hierarchy, God Himself. --Preface by Blanaid Rensch

What an incredible book! I purchased the kindle version. If you are on a journey of self discovery and you want to be inspired to see yourself as you truly are then this book is for you. Keep in mind it is directly related to their system - The Traditional Study of Angels. Which you will want to begin if you can meet the challenge and discipline of the study. There is a wealth of information here to help you look at dream symbology and it can put you on the path to understanding your own dreams as well as your waking hours of actions, behaviors and feelings as you learn to stay conscious of them. This is directly related to the Law of attraction although this is not mentioned. As you change yourself the world around you will change. The book specifically deals with growing and attaining the God qualities and virtues that are represented through the angels of God. Prior Judeo-Christian knowledge and background is helpful since the knowledge disseminates from here but desire to learn can always take you very far regardless. It will help to give you an understanding of Angels, dreams, signs, and symbols and how they all relate to your every waking and sleeping moment. Then you are on a journey of self-discovery and self-development.
