Customer Reviews

Well, the book was not what I expected. It's a total of 50 pages and not one picture. And the "Conclusion" page says in paragraph 2, "I also really do hope that this book has enlightened you in some way. This book was specially written to help you understand Italy and all its attractions and wonderful things to do there." In a book on SCOTLAND, that's detracts from the credibility of the information a bit!!

After receiving this book, which is dissapointingly short and reads like some child's cliff notes on Scotland, I am very disturbed by all the recent reviews that lead me to make this purchase. This book is totally useless and lacks any information that would be helpful in planning a trip by someone who actually is going to Scotland in the near future. After I read through this book, in shock, I went back to see the reviews again, thinking the wrong book had arrived. But, no. There is one valid review that I failed to see when buying, that mentions one of my favorite parts, the hope I have a better understanding of Italy. This book is total junk.

This was a total waste of time and money. The author doesn't even have his/her name on it. The pamphlet is full of typos and grammatical errors. It was/is a joke. The last page concludes for the readers memorable experience in ITALY! The book is on Scotland. This print-on-demand book should be taken off the website.

This book is worthless. It provides no detail, only simple, unhelpful statements (one example: "Scotland is home to many river systems. One of the most popular rivers is River Ness. River Ness is a short river in comparison to other rivers in the country, only 12 miles. Although short, it still provides great views and is nearby to many tourist attractions in Inverness"). A fifth grader could have done a better job. Don't waste your money on this book.

o k, but the conclusion page 50 states the book was specially written to help understand Italy.

Very little of real value here...reads more like a series of emails home than actual travel advice. I will take a different guide along.

Scotland is a very beautiful place to visit. This book gave me an extraordinary place to begin arranging our trek to Scotland. It gives a touch of history and foundation for each place and dazzling full-shading photographs. I wish it had a little nation guide of Scotland with the 20 put names so you could get a visual of where each is found. It has a little guide in the back yet it has numbers on it and they wreck the place names so you need to continue backpedaling and forward in the book. In the event that those numbers were intelligent you could simply tap on one to see the name and perhaps double tap to go to the page. Since would be truly helpful, IMO. A short, best level book you can read in somewhat more than 60 minutes. Must read and explore Scotland

This book is magnificent! It feels like I took a visit in Scotland. Me by and by likes to travel a considerable measure and find things about that place myself. I cherish how the creator guides me to boost my stay in Scotland if at any point I will. It gives tips and thoughts what are the best places to visit from. Scotland is truly a combination of all wonders. Culture, celebrations, Concerts, recorded landmarks, bistros, eateries, Islands, untamed life, bar, music, culture, fish, old palaces, beautiful scene, Museum, angling and so forth. I simply hypnotized by picturing the excellence through perusing.
