## Customer Reviews

"Gloriously gory, gorgeous, and therapeutic to boot, [The Beauty Of Horror](#) is a coloring book that won't likely end up in a stack of your recyclables, but rather proudly displayed on your bookshelf." [Geeks of Doom](#)

Art therapy for the abnormal. Award-winning creator Alan Robert invites you to color your heart out and resurrect the dead with your brilliant palette. From the moment your colors hit the very first page, you will be instantly drawn into a world where killer clowns, sinister ghouls and creatures of the night creep and crawl. But fear not! There is something devilishly beautiful about these twisted, intricate, pen-and-ink illustrations. The only way to survive The Beauty of Horror is to complete,

color and embellish your way out of this labyrinth of ink... if you dare!

I preordered this coloring book at the beginning of September and just received my copy yesterday. I absolutely love it! The pictures are creepy and very pretty (pretty for the type of content at least). A lot of the pictures are very detailed, but as long as you have either use pens or keep your colored pencils nice and sharp, it shouldn't be a problem. The quality of the paper is very nice and thick and easy to draw/color on. I highly recommend this coloring book to anyone looking for a creepy coloring book for Halloween or if you're just into that kind of thing.

I LOVE this book!!! I have over 75 coloring books and I can honestly say that this is my favorite coloring book, it makes it very hard to do my day to day activities because I just want to color in this book. The pictures have such amazing details and thought put into them. I was not disappointed in a single picture, most of my coloring books have several pictures that I will never color but there isn't a single picture in this book that I don't want to color!!! I highly recommend this book, especially for horror fans. A lot of Halloween coloring books are more pumpkins, black cats etc and they lack the detail this book has. This book has the detail, the gore and the kind of pictures a real horror fan can sink their teeth into. Buy this book!!!!

This book is AMAZING! The artist obviously loves what he does. Whether you are into horror or not, anyone can appreciate the beauty of the work and how much effort was put into this book. So much to color for an amazing price. I don't know where to begin!

I grew up on horror movies. I reenacted said horror movies with my Barbies. I also drew and colored A LOT. This coloring book would have been an obsession when I was a wee thing but now it's gory relaxation. It had me at zombie-octo-mermaids.

Never been a big coloring book guy, but This Time I am obsessed! Alan's drawings are exceptional, and in My Eyes, it's a fun challenge adding color to his art. Zombies rising from Underground, creepy clowns, spiders weaving webs - horrific Through and Through! As far as the actual coloring, the River Runs Red. Lots of blood! Been using watercolor markers, sharpies, and colored pencils, and the pages hold up well with nothing bleeding through - no Stain Remains. I throw on some metal, listen to the Words and Music and color away. There's a Method of Groove to it all, which usually means three or four hours flying by like nothing. Great way to spend your Monday, Thursday

or Friday evening. Nothing but Respect for this book and its art, no Bad Seeds. Highly recommend picking it up. Also fun to see everyone else's colorings!

Amazing!!!! Incredible artwork. So excited to color these pieces in the book. Skulls, horror scenes, and all sorts of interesting pages. I don't want to give it away.... But this is one of the BEST coloring books I own. And I have a few. Of course you have to appreciate horror in some way to truly absorb the pages. I suggest this coloring book to everyone..... Alan Robert is a TRUE artist.... And I hope he makes another

Absolutely love this horror themed coloring book. The artwork is incredibly detailed. There's so much variety to the 'horror themes' too. Werewolves, zombies, sea monsters, etc. This is the first coloring book I've found that's HORROR. It calls me to in so many ways. As soon as I seen that it was on pre-order I had to order it. I could not wait to get it and it seriously has not disappointed. I totally recommend it to anyone who loves horror and anyone who loves to color!

I love horror. I love a certain amount and type of gore. No Saw. This is perfect. There are so many pictures with different creepy images to choose from. Clowns, zombies, spiders, evil mummy, even the monsters in the closet and under the bed. I just found my new favorite time suck. It's far better than wasting hours on social media or tv.
