I fell in love with Vikings and Norse myths ever since watching Thor movie. That's I especially enjoyed reading this one about one of the most famous Vikings. It was definitely a cognitive and very interesting read for me.

Very interesting book. A few misspellings throughout and can get difficult to follow chronologically but it's understandable due to it being based on historical evidence which is of course spotty at times. Overall, a very good read and effective method of walking through time to explain all the different figures and their achievements.

Bought this for my husband, and was a little disappointed. I thought I was ordering a book, but when

I opened it, it is more like a pamphlet, or a childrens book.

I found the book interesting but the style of writing was juvenile and amateurish. Numerous spelling mistakes and the book needs to be edited.

This is a marvelous book which is written on Ragnar Lothbrok and about his life and his personality. The character of ragnar lothbrok is very interesting to read about. There is a description about his sons and wives, each of this book pages contain captivating writings. This book is simple and vivid to understand and give worth to our luxurious time through this book.

If you're familiar with the popular TV Show Vikings, you surely know who Ragnar Lothbrok is and you probably became a huge fan of him. The author of this book does a great job at revealing the history of the famous viking hero: who he was, the members of his family, what he did, and the legacy he left behind.

I have been wanting an introduction to this character and I got it. I really enjoyed reading about Vikings and their way of life. I would recommend to family and friends to read. I like it! I want to read more.

My nephew loved this kind of books and this one i found in his collection. For curiosity sake, I read the book and honestly, I found this book really interesting and very informative. The narrative way of delivering the story of Ragnar Lothbrok is a page turner. I can tell that this book is worth to be in your collection. Teenagers will love this book for sure.
