Dr. Bob's Guide To Stop ADHD In 18 Days

Synopsis

This how-to guide can rid children and families off medications and detrimental foods - junk foods loaded with sugar, preservatives, dairy products, and trans- fattyacids - so that children and families can enjoy optimal health. "This user-friendly book has the potential of setting families free from the nightmare of ADD, ADHD, and ODD. Using drugs on kids isn't solving the problem. Follow Dr. Bob's directions and witness the change is can bring to you and your loved ones." Bruce West, D.C.

Dr. Bob De Maria has been trained and tested in the utilization of nutritional and natural products and has focused his attention on seeking simple answers to tough questions. In addition to a

chiropractic degree, Dr. De Maria has a bachelor's degree in human biology, diplomate status in chiropractic orthopaedics, and a fellowship in applied spinal biomedical engineering. He has taught in the legal, insurance, business, and health care fields throughout the United States and Europe.

If you know of anyone dealing with ADD/ADHD this is a great book. It gives a lot of insight to a of different things that could be causing the problem. We have tried some of them and it really seems to help.

This book was easy to read and well organized. His findings agree with things I have heard elsewhere, but not seen in a book.

easy to follow

Reading and hopeful that information will be helpful.

Not too bad, it had a lot of info in it I did not know. Some of the plan seems a little unrealistic though. But I am changing my sons diet now, and adding in the recommended vitamins he needs. Hoping to see some progress this summer.

Reading now so far it's a great book.

My son has struggled with ADHD for a very long time. This book was a life saver and any parent that has their child on pharmaceutical drugs to treat this condition needs to listen to the advice in this book. I successfully have switched my son off of his Adderall drug medication onto a vitamin and oil regimen. Dr Bob is a doctor with a wealth of knowledge and experience with all conditions anyone might have. His website [druglessdoctor . com](http://druglessdoctor.com) has videos, blogs, store, etc to help in a journey to cure yourself naturally. I would strongly encourage anyone who wants to get off their medications and obtain a healthy lifestyle to read any of his multiple books or visit his website.

We started Dr. Bob's diet/ vitamin mineral supplements/ & flax oil this summer. So far so good for the school year. It is still early in the year (3 weeks in) but things are better. His new teacher has bragged on him twice. First thing she said to me was "I love your son! He is doing really well." A week later she bragged on him again saying "You have a good reader on your hands." He is not

bringing mounds of home work home yet! Like I said it is early yet in the year, but I like the difference so far! Yeah!!!! :)
