A simple two-page sticker book, to entertain a child while waiting for an appointment or traveling in the car. The stickers can be repositioned but it is not uncommon for a child to tear them. It does not "entertain for hours" but it does help a child wait quietly for 10-30 minutes. It is convenient to carry a couple sticker books around, as they take up very little space in your bag.

I purchased these for \$1.50 each but they were a 4 for 3 promotion, so I ended up paying only a little over a dollar each.**PROS:** You can just take out the sticker pages and place stickers on the glossy pages. The stickers can be placed and removed multiple times. The stickers will not get ruined even when they stick onto each other. Fits in a small bag. Good for kids goodie bags.**CONS:** Very small area to place the stickers. We ran out of space and my toddler started sticking the rest all

over the house. Overall - I would recommend these sticker books. They are cute and the stickers themselves are quite creative. There are some where the people are facing away from us, which is unusual but fun!

Smaller than I expected but entertained my son on the plane and that's what I wanted. Worked out great!

Perfect for travel, fit just right in recently purchased passport holder [Passport Wallet - Bavallo Premium Travel Neck Wallet - Passport Holder with RFID Blocking To Keep Your Identity Safe and Durable YKK Zippers](#). Stickers not reusable type, once done it's done, but for the price definitely worth the play value

Although it's silly to complain, considering the price, I bought this for my 4 year old, and she didn't have fun with it. She has other sticker books that she enjoys, but I think there were too many stickers for the small farm board picture that it came with. The cow alone took up more than 1/2 a page.

I love these little books for car trips. I have ordered several and keep them secret until after they've taken their first nap and we still have a couple hours to go until a meal break. It kept my 3-year old and 19-month old girls entertained for about half an hour. The stickers were a little hard for the 19-month old to get out on her own but I expected that.

This is thin and small which I enjoy. It has kind of a weird set up with the stickers being in the middle pages and the sticker scene being on the outer pages, but it was nice to keep in my purse for restaurants and surprise waits. My Toddler had a little bit of a hard time getting the stickers off the page, but it was no problem for an adult. There is a nice variety of stickers and the scene is well-drawn; they're just small (4X6 inches, total for the whole thing)

I realized that this book would be small from reading the other reviews but that wasn't a problem for us. I bought this to help keep my daughter occupied during a plane ride. It was great! In fact we ordered several of these Dover Little Books and we will be using them for keeping her busy in church or at a restaurant. It's a little bigger than an index card, which is fine for the price. The stickers and background are charmingly drawn. Plus there are so many stickers that come with this

book that my 4 year old was able to take the extras to add onto drawn pictures.
