## Customer Reviews

I read this book during the time when I'm actually on hiatus for my book-related stuff, including reading, book blogging and actively talking about books on social media. I was so excited when my office's administrative staff passed the package to me with this pretty book in it. I've always love the Zodiac series. The world building is so extensive and complex, the characters are enthralling and the story is simply soul-gripping. In Black Moon, we're introduced to another three houses, i.e. Scorpio, Aquarius and Pisces. I really admire the amazing creativity and imagination of Romina in the world building. It's not only one but 12 houses/planets! There's a big contrast between House Scorpio and House Aquarius. House Scorpio features advance technology (sci-fi) whereas in House Aquarius, it's like a fairy tale land (fantasy). The one thing I love in each of the houses: House Scorpio - very advanced filtering system in Planet Sconcion which splits H<sub>2</sub>O to oxygen for breathing and hydrogen for fuel. We need this technology in order to move into space! House Aquarius - Of course it's the closet archiver! Isn't it a dream gadget for all ladies? House Pisces - This could be the only one house with real books and shelves but on top of that, they have Pegazi!! I was awetruck by the ending and honestly speaking, I started to get annoyed to read books in series. Too bad I have to wait until August 29th this year for the final instalment of the series.

ZODIAC is one of those rare and special book series where each book that comes out seems to be even better than the last, WANDERING STAR certainly set a high bar, but BLACK MOON is my favorite yet. I fall more in love with this world, with these characters, and with the pulse-pounding romance with each book. I am absolutely captivated by the premise of building an entire fictional world around the Zodiac signs. I actually had the immense pleasure of getting to attend the Penguin Teen Tour last night and listening to Romina drop some serious astrological knowledge. It was, quite frankly, impressive and certainly made me appreciate that element of the world-building even more. One of my favorite things about these books is the villain, who becomes more mysterious and captivating as the story progresses. The Master's secretly widespread influence and following creates this environment in which you never know which characters you can and can't trust and drastically increases the tension in the story. There are so many things I enjoyed about this book from the dedicated friendships, the brother/sister relationship, and the INTERGALACTIC BALL!!!! And I have to admit that I adore the romance. It is so swoony and captivating, and I just can't get enough of it. I am thrilled that THIRTEEN RISING is coming out next month. I cannot wait to read

what I'm sure will be a stunning conclusion to a series that I have enjoyed so much.

This book is by far the best of the series! Romina is such a talented writer. Her galaxy of characters are some of the most unique I've ever gotten to know. This leg of the Zodiac saga has me wishing that Thirteen Rising was out now! I don't want to post spoilers, but this is a must read. Hysan can't get anymore perfect.

This series just keeps getting better and better and the first two books were amazing! I cannot say enough good things about this series, I loved this book so much. I need the last book now!

I never write reviews but this series has really moved me. I am falling more deeply in love with the story and characters with each book in the series. I love the world-building that goes on as we learn about new signs and planets. I think each book is better than the last which makes me very excited to see what the next book in the series, Thirteen Rising, has to offer. How am I going to wait until August?

Really have enjoyed this series. I purchased the hard Cover since paperback doesn't come out for a while. Was not disappointed with this 3rd book at all; so bummed that the final book will be out in MONTHS!

Author describes everything in such well thought out detail. Only thing to complain about is having to wait for the last book to come out!

I adore this series so much. I've been hooked since I first started reading. The plot twist are just amazing!
