SeQUENCE ENTANGLED: A Young Adult Fantasy Romance (The Heart Of The Ocean Series Book 3)

Synopsis

Back in her home realm of Tuscania, Alessia's powers are stronger than ever. Not only that, she and Dante make their romance official and get engaged, but their bliss is short-lived when Alessia wakes from a nightmare screaming a prophecy. Her words, "Protect the womb • safeguard the seed," make no sense. Despite her surreal glow, she certainly isn't pregnant. As the dreams increase and a strange voice breaches her personal shield, Alessia fears she's losing her mind. What if her people declare her insane just like her family did back on Earth? Alessia keeps her growing turmoil a secret, even from Dante. She can't distract him just as he stepped up to be the leader he was born to be. Dante quickly discovers being a leader isn't easy. Tuscania desperately needs the help of the dreamers of house Regai-Rallias, but they will only offer aid if Dante honours an agreement he made seven moon-years ago to marry Lavia. Torn between politics and love, prophecy and truth, dreams and reality, Alessia and Dante's Sequence of Hearts will be tested like never before as they struggle to save their kingdom and themselves.

Customer Reviews

I purchased the first book in this series and it was a great read that I breezed through because the author's writing effortlessly brought me into the fantasy world the story is set in. This book has been no different - the settings and characters were captivating and kept me engaged. For readers looking to disappear into a new and unique world for a few hours, this is the book for you! I received an ARC of this book but it has not influenced my opinion.

This series continues to get better with each book. There are clever twists, turns and surprises as the plot unfolds. New characters and dangers introduced, along with increasing tension of the mÃfÃnage et toi Good clean fun. I was forwarded an ARC of this novel without obligation. This review is also left without obligation.

As in all of Lorraine's other books in the stories, I loved her use of imagery. It makes you feel like you are in Zeneshia, like you can see everything through Alessia's eyes. The plot is well developed as in her other two books. There was an interesting plot twist towards the end that I'm interested in learning more about in her next book Sequence Unbound. The ending was not what I expected, but that is good in a time when ideas are constantly being recycled. However, I feel that the slang can be distracting and sometimes there are too many metaphors, overcoming the beautiful imagery. I am looking forward to reading Sequence Unbound!

This genre confuses me because I am unfamiliar with it. The writing was good. If this were your genre it would be great
