WHO Classification Of Tumours Of Haematopoietic And Lymphoid Tissues (IARC WHO Classification Of Tumours)

Synopsis

WHO Classification of Tumours of Haematopoietic and Lymphoid Tissues is a Revised Fourth Edition of the WHO series on histological and genetic typing of human tumours. This authoritative, concise reference provides an international standard for oncologists and pathologists and will serve as an indispensable guide for use in the design of studies monitoring response to therapy and clinical outcome. Diagnostic criteria, pathological features, and associated genetic alterations are described in a strictly disease-oriented manner. Sections on all recognized neoplasms and their variants further include new ICD-O codes, epidemiology, clinical features, macroscopy, prognosis, and predictive factors. This classification, prepared by 132 authors from 23 countries, contains about 1300 color images and tables and more than 4500 references.

Book Information

Series: IARC WHO Classification of Tumours

Paperback: 586 pages

Publisher: World Health Organization; Revised edition (September 30, 2017)

Language: English

ISBN-10: 928324494X

ISBN-13: 978-9283244943

Shipping Weight: 1.1 pounds (View shipping rates and policies)
