Customer Reviews

Renowned for more than 100 years for clear, accurate and well researched mapping, Michelin maps give travelers an overall picture of their route, with the practical road and travel information they need. Many points of interest are also indicated. Maps include an extensive place name index, along with inset maps of the main urban areas for quick navigation reference. Travelers always appreciate Michelin's easy fold-up design: the maps can be read like a book and then folded up neatly.

I have been using Michelin maps since 1969. If you need an up to date and accurate map, the only way to go is with Michelin. With the opening up of tourism in Cuba, a good map is more important than ever. This one won't disappoint.

Every time we plan a trip overseas we get Michelin maps. They're the best!

Super details and print large enough for me to read. Yeah!

This map fits my needs of following our group's route through the country. It had sufficient detail for

me to stay oriented.

Very detailed. Really like this map

Great map

I wish I had it with me while we were visiting Cuba

As always.
