Customer Reviews

This sequel to The Mountain King is a funny, sad, loving, hating, smooching, fighting suspenseful ride that I really enjoyed! The Dragon, Stone & Steam series carries on with the next chapter, surprises all along the way. Serephone and Amnan's story is touching and funny at the same time, and their characters are rounded out well. Be sure to read The Mountain King first to get maximum enjoyment out of this series, and once you've finished The Silver Spider, you'll be eagerly looking forward to the next chapter in this series! I had already preordered this book, and afterwards I volunteered to get an ARC. My opinions are my own.

I have been waiting for this book and I was not disappointed. All the action, drama, suspense, family dysfunction, and intrigue from The Mountain King carried over to book 2. Serephone took up the mantle of figuring out who paid Ruthus Adjrius to cause trouble in their town. She tried to lie low after her mom's wedding before making her move. Luckily or unluckily she has a tail in the form of her new stepbrother, Amnan. The dragon shifter made a promise to his stepmother to keep her eldest, craziest, and deadliest daughter out of trouble. Serephone reluctantly accepts that she must team up with Amnan, very reluctantly. When fingers are pointed at the Fae, Serephone and Amnan find more than they bargained for.

I am loving this series and the characters! Serephone is strong, snarky, smart, and loyal, but her stubbornness can come back to bite her in the butt. Amnan was not what I expected at all. He was so patient with Sere and all of her hangups. I thought he was going to come off as a totally alpha male character, but he surprised me with his slow persuasion and pursuit of Sere. Not the ending I expected either, but all good.

I would have given this 5 out of 5 except for a glaringly obvious plot hole that bothered me because it was a side story never really given a definite ending. I felt like the writer forgot to wrap that side

story up with Hrutha and Persia or an editor overplucked and took too much out. It was a let down from the last book. I hope it gets better and it isn't too random for the next book. I also felt like it switched perspective too much. I was going into this book with the idea that this would be Serephone and Amman. I would have preferred it to mostly just be in their perspective the whole way through like the last book was with Maddaugh and Kailligh.

This story dragged a little. The ending was poorly done and I found it hard to get into the way the main character was portrayed. Won't be reading anything more in this series.

Serephone is one of the twins, and boy is she feisty. She is on a mission and doesn't intend on anyone getting in her way. Amnan has been through a lot, even the death of his mother. These two could be just what the other needs, but they can't see to stay out of their own way. I really wanted to love these two and see them get a happy ending. I know there is more coming in the series, but I want the answers from here first. lol Hope we get some answers to several questions in the next book!!

I loved it! Sere is such a one of a kind character. Loved her take no prisoners attitude. To be faced with the father that abandoned her while at the same time facing servitude showed her strength. From the beginning this story had me hooked. Or maybe it was the mechanical spiders...

I really, really liked her darlings. I suppose it's hard to describe an introverted character and I imagine that Amnan was meant to be experienced as such. At least I had that feeling. And I had some trouble connecting with him and Serephone which resulted in not being able to connect with this book as a whole. Nevertheless, the world this author is building is unique and refreshing and I'm looking forward to another one from her. To answer her question regarding spinoff series with Dawnthorne and Anissa - YES PLEASE!
