My wife loves football but... Down um? LOL This explains things and gives a good overview on the game. She loves it and knows what is going on.

This is a wonderful book for moms that didn't grow up around football but want to learn so their football- playing son doesn't think they are a complete "DUMMIE". Very easy to read and reference when something happens unusual in the game that you aren't familiar with.

Love, Love, Love! Great resource for better understanding the game! I did not grow up watching/understanding football and I like to talk intelligently about the game!

Funny book with a lot of good info. Easy to understand.

I bought this for my 11 year old son and he loves it.

Purchased for my 14 year old daughter who really wanted to understand the excitement surrounding football. Kind of late for this season, but I'm hoping she will get a better idea of the game next season.

So helpful when you are hearing terms that the casual yet rapid watcher of football hears during a Sunday game. I keep it next to me. Thanks Howie!

Great book for fans who understand the game but want to learn more about positions, play calls, formations and regulations.
