Nora Roberts is the #1 New York Times bestselling author of more than 200 novels. She is also the author of the bestselling In Death series written under the pen name J. D. Robb. There are more than 400 million copies of her books in print.

Nemesis was a nighttime seeker of justice. He would find wrongdoing such as robbery, rape and murder and stop it. He could blend in very well with his surroundings. Assistant D. A. Deborah O'Roarke found this out first hand one night when she was out late and someone attempted to rape her at knife point. Nemesis was there to save her. She couldn't understand why she was so drawn to him. The attraction between them was mutual. While she was at a fundraiser for the mayor, she met Gage Guthrie. The attraction she felt for him was identical to the attraction she felt for Nemesis.

How could she be in love with two men at once? But, she didn't have time to dwell on this. She was overworked and focusing on a drug selling ring that was in the city. She had gotten the information from a suspect who turned up dead while in police custody after talking to her. When a second suspect who agreed to talk turned up dead when she went to meet him and an attempt was made to kill her, she was more determined than ever to solve it. Every lead led to a dead end. But apparently, she was ruffling feathers because now more attempts were being made on her life. Threats were being made against her family. Gage openly pursued her. Nemesis showed up at night. Wow!! Talk about being confused. When she is with one, she thinks about the other one, and vice versa. When she discovers they are one and the same, she is furious. Gage can help her solve this case if she will trust him. Will she let him? A good romance mystery. A fun read.

I'm not one for science fiction so perhaps that's why I didn't like this book at all. It lacked all of the reasons that I typically love Nora Roberts. It lacked enticing character dialogue, good plot development and I feel like Deborah's love mate was as ambiguous as apparently his skin was. Didn't get it. Also ending was abrupt. Ms Roberts, you're such an amazing author did you really write this book?

I really enjoyed this book. It was a fast read, a love story but a fun one - sort of a super hero book for women. The masked vigilante "Nemesis" gave a different twist to the story. I found the plot interesting - since the main character was a prosecutor and she followed the law and he was busy at night "doing his thing" and the police weren't thrilled with some of the things he did even though he was helping the city reduce its crime rate. It would make a good "chick flick" movie that even men would enjoy.

I enjoy listening to Nora Roberts especially the series books.

This was part of the Night Tales series and I loved all of them. Just enough suspense and romance to make this one of my favorites. This is a second read for me and I'm sure I will read this series again in the future.

This was not one of the interesting books that has been written. I would not recommend this book to anyone.

Great

Always enjoy Nora's books she is a great story teller and keeps the reader involved from beginning to end. I recommend reading this.
