Customer Reviews

I am not sure what I just looked at. It wasn't a book. it was a mash of slightly related statements over about 14 pages in broken or badly translated English. Total rip-off of other legitimate books on same subject and not worth the band-width nor the \$.99Disappointed

I bought this book as an introduction to the concept of eating right for your blood type and was excited to start reading it. Unfortunately I was appalled by the way it is written. Perhaps, it was translated electronically and never reread or edited. The quality of the writing in absolutely unacceptable.

It was helpful I just wish it had more about what to eat and what not to eat. I'm going to have to buy another book.

Total waste of money and time. Very poorly written and at times made no sense what so ever. Don't buy it.

Not showing any diet. Not what I expected.

The vocabulary used in this book makes me think it was translated by an app that totally missed the intent of most sentences. It was too broad and nonspecific.

if you are looking for a quick read overview this would be a good choice. Quick read and interesting topic.
