The Perfect Cut

Synopsis

After the death of his tough, guitar-playing, much-loved sister, Michelle, Brian finds it increasingly difficult to care about anything. He doesn't care about his parents. He doesn't care about his friends. He doesn't care about school. He just doesn't care anymore. The only time Brian comes alive is in the few seconds it takes for the razor to slice through his skin. But he never cuts deep enough to cause any real damage. At least, not yet... In *The Perfect Cut*, Julie Burtinshaw has written an incredibly honest and perceptive novel about cutting, revealing why this dangerous practice has become an increasingly common form of stress relief among young adults. Told from the perspective of the grief-stricken Brian who, in his mind, has run out of options for coping, it's clear that while he makes some bad choices, he's not a bad person. The book ends on a grace note, reassuring young readers that even terrible obstacles can be overcome, and that where there's life, there is hope.

Book Information

Paperback: 208 pages

Publisher: Raincoast Books; First Printing edition (July 15, 2008)

Language: English

ISBN-10: 1551928167

ISBN-13: 978-1551928166

Product Dimensions: 8 x 5.8 x 0.6 inches

Shipping Weight: 10.4 ounces

Customer Reviews

I believe that in today's society, books about social issues are indispensable. *The Perfect Cut* is one such book. Julie Burtinshaw has taken a hard look at one of today's most (unfortunately) common and much hushed topics - cutting. While many people choose to believe this is a limited problem - in my opinion, it goes right up there with eating disorders - both issues are growing in leaps and bounds and people are choosing to ignore the problems. *The Perfect Cut* describes the perfect, painful pleasure our main character takes in cutting himself (yes, I did say "him") as a way to release his stress, pain and sadness. This book is doubly unusual in that it made its main character

a male. Again, most people will assume that cutting is strictly a female problem - but I do not believe this argument. What is so fascinating about Burtinshaw's book is that as the reader, I get to "be" in Bryan's mind - before, during and after he cuts himself. The vivid description of the cutting and of the feelings he experiences make this book extremely difficult to read and yet, strangely compelling at the same time. Cutting is a complex issue and the author does not claim to have it all figured out - yet, this book is a gem - in telling us, simply and honestly, what Bryan is living with day in and day out (some of it in his head and some of it - his reality) we get a sense that this person is deeply hurt and although cutting is not the solution (neither is drugging, eating disorders or drinking for that matter) Bryan, in his own way, is trying to do the best that he can. I believe the time for this book has come and I suggest it be read by all Young Adults and their parents alike - you are not going to like what you read, but it is OUR reality now.
