Customer Reviews

George W. Shannon and Pat Torlen own and operate 'On the Edge Glass Studio' in Winnipeg, Canada. They teach as well as design and fabricate commissioned works for commercial and residential clientele.

I have checked this book out of the library on several occasions to use as a 'reference manual' while making mosaics. I like this book so much that I am going to purchase it to add to my collection of books on mosaics. The book is very thorough in explaining technics, materials, and mosaic lingo. There are color photos which accompany the step-by-step instructions, as well as a number of color-coded mosaic patterns. Each time I peruse the book it inspires me to be creative. This book is a must have for beginner as well as advanced mosaicists.

I am wondering if this review is for another book because sewing machines are not used or referred to in any way in our book. If our book is the one referred to please email back with a page number so that we can clear up any misunderstanding. Thank you.
