Spada has a B.A. and an M.A. in English from the State University of New York at Albany and a B.S. in Real Estate Studies from Empire State College.

I always read this before going on an inspection of a residence. Great detail and explanations. Great companion is "Building Failures" by Ransom, CodeCheck series, and "How Your House Works."

Planning on becoming a home inspector, and this book has answered a lot of questions. Full of very good information and great pictures. Love the review test after each chapter. Makes you think, not just glance.

This is great book! If you know nothing about building houses this is the book for you, it breaks everything down for the reader and explains what to look for and why. It also includes pictures diagrams and a work book at the end of each chapter. Very good learning book for anyone looking to go into the Home Inspection field.

this book should cost more,,iam so glad i got this book so informative ,,tells me things that all of my home inspection books dont tell me,,belive me if your getting into home inspection this is a must for your library of books.

This book was a gift for my husband who is interested in maybe becoming a Home Inspector someday.He was looking for a book to get him started and to get some insight. He said this book is greatbecause it isnt too basic,he already has background in building and carpentry. He is enjoying itvery much.

I was looking for a book that surveys all aspects of home inspections in clear, easy-to-read language, and points me to the next steps for those items where I want to go further. This book is it. It also sparked a number of new ideas that might be interesting to pursue.

If you plan to take either an on-line or in classroom home inspection course, this is an excellent tutorial and reference; comes with quizzes after each chapter and a workbook at the end.

Covers the essentials for Home Inspection in an easy-to-read, uncomplicated style, in an inexpensive book. I would recommend this book to anyone whether they are simply a single home-owner or property investor!
