10 Practice Tests For The SAT: For Students Taking The SAT In 2015 Or January 2016 (College Test Preparation)

Synopsis

THE PRINCETON REVIEW GETS RESULTS. Get all the prep you need to ace the 2015 or January 2016 SAT with 10 full-length practice tests and detailed answer explanations! The SAT is changing in March 2016--and the word on the street is that it's getting tougher. Don't miss your chance to take the existing exam! This book provides practice that reflects the SAT being proctored through this year and into January 2016. It provides:

- Everything You Need to Know to Help Get a High Score
- Tips for each section of the exam, including how to write a high-scoring essay
- Practice that replicates the real test and covers all sections: Math, Critical Reading, and Writing
- A special "SAT Insider" section packed with helpful information about planning college visits, picking a perfect school, and writing essays that stand out
- Practice That Helps Get You to Perfection
- 10 full-length practice tests for the current SAT
- Detailed answers and explanations to help you learn from your mistakes
- Answer forms and self-scoring information to help mirror the actual test-taking experience

Preparation for Students Taking the SAT in 2015 or January 2016.

- Practice that reflects the current exam parameters
- An all-new section for the Class of 2017 that highlights their options for admissions exams
- Helpful advice about the college admissions process, financial aid, and more

Customer Reviews

Order now. This book is the perfect intermediary for students who want to take one SAT in the fall and one SAT in the spring. This volume of 10 practice tests will give your student just enough to do a test a week, which is what I recommend for students who want to learn strategies. It also briefs the students on what changes will be coming in the spring. I think it's a great time to hedge your bets and try one of each test, you may come out ahead of the curve. Over years of teaching, the Princeton review strategies, when successfully learned do concretely help your score. The SAT is not a test that evaluates your intelligence, it is merely a test that evaluates your test taking. As hard as it may be, study for this test, you won't regret it.

This review is from my daughter who was preparing for the SAT's. She thought it helped her in what type of questions to expect and how they would be presented. She felt she did better because she used this book in preparing for the exam.

very useful in preparing the students for higher studies. the examples match what is normally seen in the real placement tests. good and practical guide for a positive result in the exams.

It never hurts to start early and get ready for what is possibly the most important test you will ever take. I know some can debate books is better but this one seems to fit our needs right now.

practice tests are good, but explanations are not as good as the ones in the old book. ex: "the questions says dadada, C is the only possible answer because non of the other ones make sense"

Great Book, with challenging exercises. Helpful explanations on how to prepare for the SAT and the key requirements for writing a good essay.

An excellent SAT book.

Thought it was new SAT, but it was old one. Otherwise it may be a good book. Not sure. Did not use it yet.
