These books never cease to entertain. This entire series is very informational and tells a story that I can NEVER put down at the same time. This book is just as amazing as the first one and I can't wait to see what happens next. P.S.:the ending is such a cliff hanger!

We understand that this is fiction and not 'Gospel' but the Rapture is real, Jesus is coming back soon and these books have been great for conversation starters and questions.

My eleven year old son started this series and was captivated. I have read the adult versions when they first came out and was equally enthralled. My son is an avid reader, and especially enjoys what I think of as "secular boys fantasy". These books satisfy his desire for something fast paced and exciting, and also teaches him about what the Scriptures foretell about the end of the world as we know it. He's read the first 30 or 35 books, and is anxiously awaiting a back order of the last 5 books. I'd be thrilled if there were another 40 books of Christian fiction for him to immerse himself in. I highly recommend this series for kids, and the adult version for their parents. Thrilling & absorbing plot, well developed characters, and a better understanding of what some think of as an intimidating book of the Bible. What's better than that?

It is our believe that the events described in this series are going to happen as the Bible has declared two thousand years ago. These books put in the frame of a novel what the Bible in several places mentions about the fait of those that have heard and not believed, those that believed but grew weary from waiting and for those that have come to believe that the Bible is not literal. Great story, my children love it.

I read the complete Left Behind series and it was perhaps the best series I have ever read. I have read some books written for teenagers and have thoroughly enjoyed them and I thought that would be the case with this book. Unfortunately, that wasn't the case. Teenagers and youth should enjoy this series but I found it was definitely not for me. I started it but did not complete it. Really, my fault, because I knew it was for teenagers.

I really enjoyed this book. It was a nice change from the original Left Behind series. They mention characters from the adult series, but the author keeps the kids as the main characters. I liked the surprise ending. Can't wait to read the 3rd book.

I am hoping to read the third book this service I love the last two tho and the idk my fave
