Practical Aviation Law, Fourth Edition: Text

Synopsis

Updated and expanded in its third edition, "Practical Aviation Law", used in conjunction with the "Practical Aviation Law Workbook", serves as a textbook for undergraduate aviation law courses. Used alone, it is an invaluable reference guide for aviation managers, pilots, mechanics, aircraft owners, air traffic controllers, air safety investigators, and others involved in aviation as a profession or hobby. "Practical Aviation Law" provides readers with the basic legal knowledge and perspective to understand how the legal system works in relation to aviation, helps readers recognize and avoid common legal pitfalls, and enables readers to recognize when they need to call a lawyer. The fourth edition has been updated and expanded to reflect changes in statutory and regulatory resulting from the 9/11 event, and a new chapter has been added on airport security.

Customer Reviews

"A superb reference for aviation professionals & hobbyists..." #151;Midwest Book Review --This text refers to an out of print or unavailable edition of this title.

Book for School

Excellent condition. Thanks

I had to buy it for college - glad it's over and sold back to the public. I'm a pilot by trade and glad I'm

not a lawyer!

This book helps me a lot for my pilot carrer and got a lot of important information about the aviation laws.

As its title promises, Practical Aviation Law is well suited to airmen looking to expand their understanding of the regulatory framework governing private aviation. It can be invaluable for pilots who are looking for a better understanding of the rules they must follow to maintain their certification. The book is best suited to non-lawyers. Aviation attorneys will need a more detailed reference for use in advising clients in legal and tax matters aside from the FAA regulations.

Great Book

Pretty good book on the progress of aviation law. Good case studys that made legal impacts on the industry.

The book was very informative but not one that i would just go out and buy if I did not have to.
