## Customer Reviews

If you're taking patent law and you're using the Patent Law and Policy book by Merges & Duffy, you NEED this supplement. I could not have possibly understood the subject without it. I found the Merges & Duffy book incomprehensible. I'm fairly certain I would have failed my class without this supplement. It is so easy to read, so clear, and excellent at summing up the core cases in each section. I'm not sure if it's keyed to the Merges & Duffy book but it seems to follow the organization pretty closely, even the policy sections. Highly recommend.

Due to my professor's shortcomings as a first year professor, I relied on this supplement a lot to fill in the gaps from the lecture. I got an A in this class, and I would recommend this supplement to everyone! It connects the dots in a concise manner, and I was able to pretty much read this entire book in the week prior to the exam.

Good book,...just what I was looking for.

I love the "Understanding" series and this really helped make a very complex area of law easier to understand.

good
