ISBN-10: 0753504812

ISBN-13: 978-0753504819

Product Dimensions: 7.6 x 5.1 x 2.9 inches

Shipping Weight: 1.6 pounds

Average Customer Review: 4.5 out of 5 stars 4 customer reviews

Best Sellers Rank: #2,223,640 in Books (See Top 100 in Books) #81 in [Books > Humor & Entertainment > Pop Culture > Reference](#) #227 in [Books > Humor & Entertainment > Movies > Encyclopedias](#) #1766 in [Books > Reference > Encyclopedias & Subject Guides > Art](#)

Customer Reviews

If you have any interest in things fab, gear or groovy, then this book is a must. -- Guitarist, June, 2000
So much more than a simple homage to a band. -- North West What's On, April, 2000

Bill Harry is the world's leading authority on The Beatles. He attended the Liverpool College of Art with John Lennon and is the author of a number of books on The Beatles including Beatlemania, The McCartney File, Sergeant Pepper's Lonely Hearts Club Band and The Lennon Encyclopedia, the sister volume to The Beatles Encyclopedia.

A+, GREAT BEATLES BOOK

Anyone who is a product of the 60's lived in an era where long hair was in, conformity was out, and the new wave of music from the Beatles was shaking the country from coast to coast. Boys copied the Beatles' music and hairstyle, while girls swooned, screamed and fainted as the world rocked to "I Wanna To Hold Your Hand." The Beatles had arrived! This book is a collector's item because it contains all sorts of trivia, facts and information on a group that will go down in the music hall of fame as one who spawned a new dawn in the music industry. It set the trend for many future pop

singers. Paul, John, George and Ringo were names that sent shivers of anticipation up and down a teen-ager's spine. I remember, as a teen, watching the Beatles' first appearance on the Ed Sullivan show on our new state-of-the-art, floor-model black and white Marconi television, and my father shaking his head in shocking amazement and lamenting, "What has the world come to?" Oddly enough, we are still asking that same question of our teen-aged children today. Sadly, there are only two Beatles left now, but the music of the Beatles will ring on through the years, if only in the memories of those who loved them and grew up with their music. This book, and the nostalgia of the Beatles, takes us back to the carefree days of youth, when young love seemed like it would last forever, as we bopped and twisted our way to a beat almost unknown to this generation. If you are a Beatles' fan, and you do not already own this book, it is one you will want to add to your collection.

I myself own quite a few books on The Beatles covering every subject that has to do with the Fab Four mostly reference books. so as I was purchasing another book on The Beatles I decided to "throw" a copy of Bill Harry's Beatles Encyclopedia in, When I got the pkg I started looking at the Beatles Encyclopedia and didn't put it down for a good hour. the point I'm getting at is that if your a collector or just want to know all there is about the Fab Four or anyone involved pick this book up!!!
Jeff Nussbaum

It says on that page "It's got nothing to you with you". I think the sentence was supposed to read "It's got nothing to do with you". Also, on page 144 there is a reference to a real life man named Frank Garner. There was a fictional character on Dark Shadows by that name. Interesting!
