The Octonauts And The Only Lonely Monster

Synopsis

The books that launched the hit cartoon!"Meomi's character design is terrific. But their books, especially their first book, are more than that...I love it, and more importantly, my son loves it and asks for it at bedtime. - Super Punch"

The Octonauts: And the Only Lonely Monster has become a new favorite here. The story follows the path of the adorable, underwater Octonauts who come under attack from a sad, lonely monster and later help the creature find others like it under the sea. A smarter person would say there's a perfect allegory buried beneath the pages -- something about how bullies have fears like everyone else and how wonderful it is to be unique. But I always find myself just getting lost in the illustrations by team Meomi....It's great to find a book that appeals to both kids and adults -- even if the appeal is for different reasons....In other words, these are the best. children's book. animals. ever. I can't get enough of them...I can read this book for hours -- and have. - SFGate.com

"Critter lovers, young and old alike, will fall in love with Meomi's new book series based on the voyages of their popular gang of explorers...sure to charm its way to the inner child in all of us." - Venus Zine "The characters are cuddly and quirky, and the moral of the story is as good as a hug from a dear one saying 'I love you for the individual you are.' We hope that's a joy you'll never outgrow." - Rivet Magazine "...we can't get enough of their illustrations and highly recommend this 36 page sea thriller for your kids." - PaperArts "While it appears as a deceptively cute children's book...it turns out...to possess the power to destroy the universe if it's not handled properly...The Octonauts is so devastating, it makes The Tribbles Pandemic look about as scary as a pom pom-tipped pen." - DaddyTypes "I usually hate 'cuteness' but this book breaks through to even my cold dead heart...Come on, we're talking about 'a valiant polar bear, daredevil kitten, and big-hearted penguin.'... I'm considering making friends with people who have kids, just so I have an excuse to buy, like, a zillion copies." - SFGate, San Francisco Chronicle "Critter lovers, young and old alike, will fall in love with Meomi's new book series based on the voyages of their popular gang of explorers...sure to charm its way to the inner child in all of us." - Venus Zine "The characters are cuddly and quirky, and the moral of the story is as good as a hug from a dear one saying I love you for the individual you are.' MEOMI is Vicki Wong and Michael Murphy. Meomi enjoys sitting by the ocean, making up stories, drinking tea and drawing strange creatures. Meomi's characters have appeared in clothing, toys, merchandise and magazines worldwide. They have also created art and animation for clients such as CBC4Kids, Google, Monterey Bay Aquarium, Yo Gabba Gabba, and the Vancouver 2010 Olympics and Paralympics. Meomi likes sea slugs, yarn hats, and ukuleles.

For the record, rating as an ebook and not the physical book. Kids and I enjoyed it. They are, however, Octonauts fans. A giant monster shows up. Wait, not a monster, a sad, friendly, lonely creature, searching for others like him. (Perhaps he has amnesia?) This prompts a search through books and ocean alike to find out what sort of creature he is, and in the process learn it's okay to be unique. Lovely illustrations, amusing content. Feel good kind of book. And based on the age group, the plot isn't too horribly thin. A bit annoying to read on kindles though. The zoom function is... limited and when you have two pages turned into one on the "search for the monster's home"/traveling the world pages, the result is a bit frustrating to try to read. Overall enjoyable. But I probably wouldn't buy again, because the page thing irritates me.

This book is adorable. We read it nightly for my almost 4 year old. We've read it so much that my Son will now read it to us!

The Octonauts books are fantastic. There were fish with viking hats on. VIKING HATS! Anyone who knows anything knows that vikings are pretty cool. My daughter loves this book and she doesn't even know what vikings are and certainly couldn't find Norway on a map. The Octonauts, while not vikings, are also pretty cool. They cruise around in their submarines helping everyone because THEY ARE TOTALLY NICE AND PROBABLY GREAT PARTY GUESTS. The books seem a little more whimsical than the show but it grants them their own charm that sets them apart from being just episodes of the TV show in book form. If your little one (or you) love the TV show I recommend the books. If you've never heard about the show I recommend the show and the books.

Such a great story with clever layout-direction change as the Octonauts travel the globe :)
Beautifully illustrated! Works on so many levels: a great, engaging story, educational,
mind-broadening, and adorable! :D We looked up real footage of the *title character* on Youtube
and my little (four-year-old) niece was fascinated ^_^ She asks for this book a lot! :D

My nephew loves Octonauts and loved this book!

Something new to read for the next generation

Great for bedtime for 3yr old.

Cute book. My kids loves it!!
