All Your Fault: A How To Survive Narcissist Abuse Guide

Synopsis

You walk on eggshells. You doubt your own memory. You never seem to do anything right to please your partner. It may not be you; you may be in a relationship with a narcissist. This book will help you learn what a narcissist is. You'll learn what tools and tricks narcissists use to control you and how others see you. You'll also learn what to do once you get out of the relationship and steps you can take to help you heal. This book was written to help anyone in and healing from an abusive relationship. It's written from a very personal perspective on living with a narcissist. I hope this book helps you. I hope you find the strength in your feet to stand strong.

Customer Reviews

I've haven't actually read a book on Narcissism, I've just picked some bad apples, within my love life. This book not only showed me how others' deal with situations with a narc but how tough it

really can be to get out from under the, "heaviest rug" of a relationship. We all deal and are dealt different cards, but one thing is for sure, loving a narcopath, as you call it, can't really be done in a healthy long term manner. If I would've known a lot of this while seeing the signs quicker, I would've saved myself a lot of heartache, and disbelief. Love comes naturally for you and me... So, thank you for your gift of writing and sorting your thoughts out to the world. You amaze me. You're my gift, I do treasure. Thank you times a million for this book!

Definitely a five star reading experience. It said and explained a lot of things that were a problem in my relationship. Page after page I saw the problems. Oh how I wish this information in its easy to read and understand format had been available 15 years ago!

Truer words were never spoken. A well written book about a very hard subject. If you only get one thing from this, let it be this: you are worthy and deserve accordingly. It saddens me that so many people go through this on a daily basis and I praise the author for having the guts to talk about it and the bravery to reach out to others in hopes of helping them.

You were the first one to point out what was happening to me. I then went to a therapist that handed me the book "woman who love psychopaths" by Sandra L Brown you were right! I am going through hell right now. Your words and countless other's words are all I have. I am a singer song writer and you are right it is time to Live my Dreams My messages are to be delivered through song! Thank you for the inspiration I am planning on writing an auto biography too! My life has been a story to tell!! Thank you for being you and for sharing your story!

It's disturbing how many people I see in my life that are in these same situations. I would like to say that although how you got out sucked, but the fact that you are out is amazing. I've sent the link to this book along to several people who (if they read it and actually apply the situations to their own lives), would be much better off!

First of all, I loved Jennifer Baldwin's forthright manner and lively writing voice as I read her book entailing the mental, emotional, and physical bruises that spouses, mainly women, find themselves dealing with if they are married to narcissistic husbands. Great job, Jennifer!

I just finished this and a box of tissues. This book made me see and remember events that should

have been obvious but I didn't realize the seriousness of what was happening as it unfolded in front of me. Thank you for your words and insight.

Awesome book. The author is wonderful. Looking forward to more of her books.
