Customer Reviews

DeLorme has been directly responsible for many of the major technological advances made in the mapping industry over the past 30 years. --This text refers to an alternate Paperback edition.

Everything was fantastic. Thank you!

Love these books!!!!

I've used a DeLorme Atlas before when I lived in Colorado. If you wish to find the back roads to get you there whether it's sightseeing or avoiding traffic snarls this is the guide to have no matter what state you live in. They do an awesome job of collecting necessary mapping data and put it in an easy to read form. I've been in Kentucky two years and I should have bought this when I moved here.

Great, accurate maps that give an overview lacking with gps. One should always have a physical map, otherwise that gps detour might end up being 100 miles out of the way on long, slow, windy, roads. These maps are unparalleled in quality and ease of reading.

Can't navigate my home state without it. I have used the Delorme Atlas for over twenty years and just recently had to upgrade to a newer edition. Accurate

We had the Delorme Gazetteer in CO and really liked it. While this one has decent information, it pales in comparison to the quality and detail of the one for CO. Nonetheless we are glad to have it in the car as a mild supplement to our road atlas.

These Gazateers are a must for traveling to a new location, they will point out points of interest on a county level and show you the State and private camping areas, as well as giving you a brief write up on places to see and things to do. It will also show you bike trails, as well as hiking trails that one may wish to utilize. They can be a real must for when traveling to a new state

I found traveling the back roads you can always use your GPS, however we have this set of maps as a back up and frankly find it much easier to read that the GPS screen. There is a lot of detail also on the map that comes in handy. Great printing, good paper and easy to read. These are hard to find locally thus we ended up ordering at .
