Pyrex Passion: The Comprehensive Guide To Decorated Vintage Pyrex

Synopsis

Discover the Beauty of Vintage PYREX! This book is the first comprehensive, all-inclusive, pictorial reference of standard and promotional items produced on opal PYREX in North America from the 1940s through the 1980s. Until now, complete records of what was produced and when were difficult to find and took hours of scouring multiple online resources. With this book, the complete chronological history of the thousands of colors and patterns of vintage opal PYREX bowls and bake ware are available in one easy-to-use reference guide. Discover how to: Identify nearly every pattern and color of vintage PYREX ever produced; Distinguish between standard patterns, design variations and promotional items; Find out the dates of production for items; Answer those persistent questions that have baffled collectors for decades; Determine the value of your decorated PYREX items and sets; Recognize if your items are rare or valuable; and Price your items for resale.

I absolutely love this book. I use it several times a week as an avid pyrex collector. Beautiful high quality pictures.

Love this Pyrex Book. It's my Go To Guide for Pyrex. My only wish is that it would at least list some of the Hard to Find pieces even if the Author didn't have a Picture of the Piece, with a nice description.

This I bought for my daughter. She was here when I came. She loved it. What a wonderful book.

We have just started to collect Pyrex in earnest, there was nothing available to determine what piece comes in what color or design. This book tells me all this and more like when it was introduced. You will see all the numbers for the pieces and for the series of pieces. Very worth the money to have a list of what all is available. Thanks for all the research that you did to write the book.

Excellent! Lovely pictures and all of the pertinent information I was looking for. I wanted this as a pattern reference and to see what pieces were made in each. Perfect! The price info is irrelevant, imho, because the price is set by what people will pay. Worth every penny!

The full color photos and original ads help with finding patterns. The thorough accounting of patterns and sizes is vey helpful. I love this book it's easy to read and easy to find/reference my ISO list!!

wish I had known about this book before buying Pyrex unauthorized edition 5 by Mauzy. The Mauzy book is ok, but would of gladly spent the \$50.00 and not bought the 4th and 5th edition of Mauzy. Although Mauzy book`s do have useful info. Can`t help reading about pyrex from all the books that I have.

I'm new to Pyrex collecting and wanted to know what patterns I had; when were they produced and a guide to rarity and value. Pyrex Passion by Michael D. Barber is an easy read that gave me the

information I wanted. In fact it just makes me want to collect more Pyrex!!!!
